EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Fredrick Vastine on 7/8/2004.

2. Cancel Claims 9-11.

Allowable Subject Matter

3. Claims 13-26 are allowed.

4. The following is an examiner's statement of reasons for allowance: The closest prior art of record is Larkin et al (US 5,709,745). Larkin et al teaches a method of growing silicon carbide comprising alternating the partial pressure of silicon and carbon source gases to adjust for different dopants and/or contaminant gases. Independent claims 13 and 19 are limited to only a silicon source gas, a carbon source gas and optionally at least one carrier gas of hydrogen or a noble gas, as a feedstock gas atmosphere. There would be no suggestion or motivation to alternate the partial pressure of silicon and carbon source gases of Larkin et al without the presence of a dopant and/or contaminant gas.
